## **Youngsul Jeong Biography**

Youngsul is a Primary Examiner with AU 1772, and a member of Korean American Intellectual Property Association (KAIPO) with USPTO, examining areas of petrochemical technology and renewable energy. Youngsul also has been serving as an adjunct professor with Washington University of Virginia teaching math and science courses. Prior to USPTO, Youngsul served in chief engineer roles managing projects with engineering consulting firms in Virginia and California. Youngsul and his wife Jinseon are co-authors of two books titled “*Tales of California along the California missions trail*” and “*Diary of elementary school in U.S.*” published in Korean. Youngsul is a board-certified Professional Engineer, earned his Ph.D. degree from University of California-Irvine, Master of Public Policy from Saitama University in Japan, and M.S. and B.S. from POSTECH in Korea.
